

GB\DataEntry Matrix

Enhance the power of your Mazatrol Matrix control and boost productivity with CamLink's latest GB\DataEntry software.

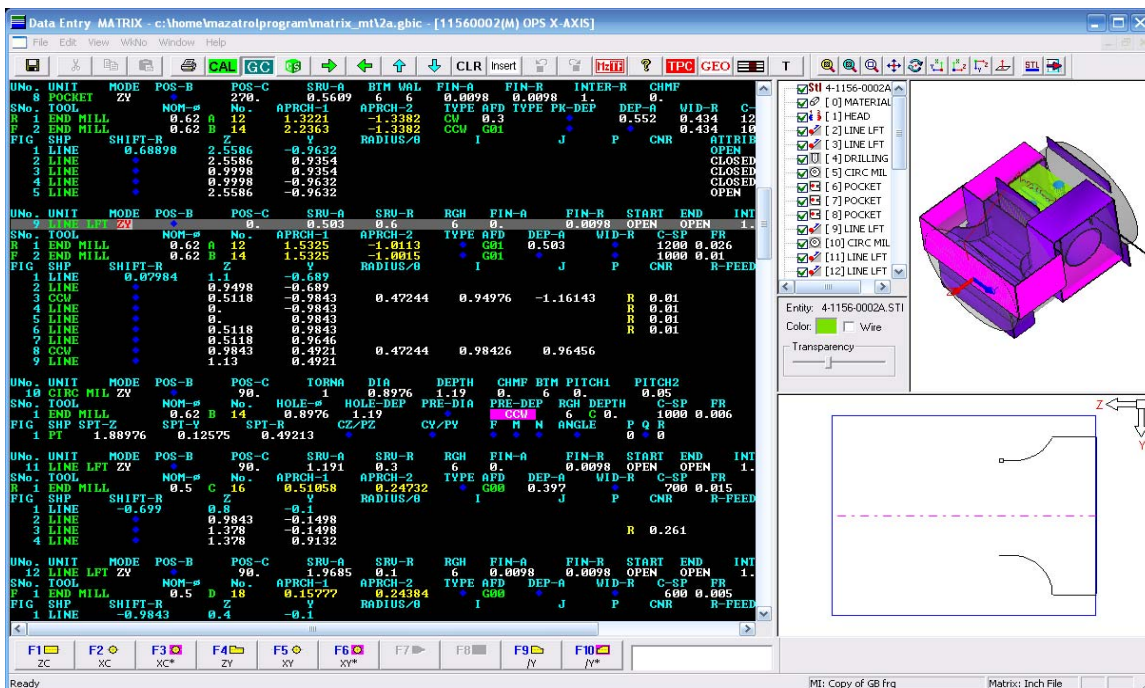

Supports
Matrix Mill
Matrix Lathe
Matrix MT

CamLink's GB\DataEntry allows Matrix users to accelerate the programming process by moving it offline. Users can efficiently program in Mazatrol at their PC and take advantage of the Matrix's improved functions including pocket milling with multiple islands and B-axis indexing for Integrex. In addition, users can check their programs for accuracy, and highlight potential, costly errors before parts are manufactured on the shop floor.

With GB\DataEntry Matrix you can....

- Create new Matrix files
- Edit existing Matrix files
- 3D Shape Check
- Split Screen Editing
- Drag-and-Drop
- Multi Field Simultaneous Editing
